

Harlequin Cascade™ and Riverdance perform their magic

Julian Erskine

Senior Executive Producer

“It’s hard to believe that over 22 million people have watched Riverdance live on stage around the world since it opened in Dublin in February 1995. Even more impressive is that over 10,000 performances have taken place and every one of them has featured a Harlequin Cascade™ dance floor and in that time well over 1,000 dancers, musicians and singers have performed their magic nightly on those Riverdance stages, safe in the knowledge that Harlequin Cascade™ works as well and as consistently as they do!”
