“As an instructor in a school that affords students the opportunity to participate in unique curriculum ranging from dance and yoga to martial arts, I needed to install flooring that could support a variety of rigorous activities. I selected Harlequin’s Activity® Sprung Floor System and Studio B™ as the flooring combination of choice for New Trier Township High School. From slip resistance to cushioning for joint support, Harlequin’s Activity Sprung Floor System and Studio B provide the safest conditions for my young students as they practice dance or self-defense techniques. The flooring’s triple “sandwich” composite construction offers the shock-absorbance my students’ growing joints need. The flooring also receives an A+ in my book because it features bactericidal properties to protect my students from the lingering germs often found on surfaces on high school campuses.”
