In addition to display floors, Harlequin produces a unique range of flooring for Dance, Performing Arts, Theater, Opera, Shows, Concerts and TV/Film Studios.

7 reasons carpet suppliers don't want you to know about HARLEQUIN vinyl display floors

1. They shrug off spills

Messy things like grease, food and cosmetics can be death to carpets. Even ruin your booth in the middle of a show. But they won't ruin a HARLEQUIN floor! Just wipe up spills. Your floor will instantly look like new.

2. They're a breeze to lay

HARLEQUIN vinyl floors roll out, loose-lay and stay flat, using double-face tape, if preferred. When the show's over, just roll them up.

3. They last longer than carpet

HARLEQUIN floors won't lose their lustrous or high gloss finish. And they easily take weight without crushing. They keep that fresh look, so you can use them in display after display if you want.

4. Dollar for Dollar they're a bargain

Initially, HARLEQUIN floors can cost a little more. But this is quickly outweighed by their super-long wear and ultra-low maintenance. And most of the time, they're less costly to ship than carpet.

5. HARLEQUIN vinyl floors give you the 'look' carpet can't

In addition to a wide range of colors, they come in realistic patterns like woods, ceramics, tile, marble, cork. Or 'wetlook' reflectives (stunning for car intro's), circles, pastels, and special effects. Launch pad modern designs for high-tech products.

6. HARLEQUIN provides solid technical support you don't get with carpet

Just phone HARLEQUIN toll-free for samples and we'll help you with handling, storage, cleanup and maintenance, etc.

7. Fast delivery's no problem

Most designs/colors are in stock and we'll help with express freight costs if you're in a hurry. Even airfreight. Try asking a carpet supplier to do that!
