

ConfiDance™

Liquid Rosin

Harlequin's Confidance™ is now available for sale to consumers. Confidance is a liquid rosin which provides a surface traction to any hard surface: wood, tile, linoleum, even vinyl. Although Harlequin's all purpose dance floors have a slip resistant surface, we answered the requests of many studio owners who have wood or tile surfaces which needed more slip resistance. Harlequin Confidance is being sold as a concentrate which means that the dilution rate can be as little as 20-1 or as much as 40-1. At present we offer Confidance in gallon size only.

Confidance ships in insulated cartons. This is to keep them from freezing in low temperatures during the winter months. For more information or to order please call 800-642-6440. Material Safety Data Sheets are available upon request.

Confidance is a product of :
