

A matchless range of roll-out vinyl floors for all your display needs

■ **Showfloor** - a multi-layer, plain colored vinyl floor covering with a choice of colors, is a decorative portable floor that can be laid on any hard smooth surface and is suitable for light to medium 'traffic'.

■ **Endura** - a heavy-duty flooring executed in a series of rugged industrial style designs, this range provides an ideal complement to the exhibition of 'high tech' product displays. With finishes such as sheet steel, deckplate and slate, Endura provides a distinctive contribution to a display area or an exhibition stand.

■ **Impressions** - a range of textured and embossed designs from tire treads to abstract patterns, this exciting range of styles brings an added dimension to any display situation.

■ **TV Tiles** - Not a roll out floor like our other display vinyls, TV Tiles are 3' square laser cut tiles which can be permanently or portable installed. TV Tiles come in white, black and gray and can be used to make great checkerboard patterns.

■ **Hi-Shine** - a range of scuff resistant, mirror finish flooring to give a sophisticated 'wet' look to a display location or exhibition booth, available in primary colors, white, red, blue, gray and a stunning black.

■ **Designer's choice** - a range of true-to-nature designer styles including woodblock, cork, oakstrip, and metallic aerotreads.
