

## Harlequin's Professional Free-Standing Barres

Both amateurs and professionals can minimize the risk of injury by stretching properly to increase blood-flow to the muscles and improve flexibility while achieving an elegant stance. Professional studio quality barre. Lightweight yet very stable. Constructed from anodized aluminum with a smooth silver finish. Available with your choice of aluminum or beech barre.

- Adjustable feet for stability on an uneven floor
- Can be set-up in various configurations using extra components i.e. Continuous line, L shape etc
- Can be erected with both barres or with just the lower height barre which is ideal for younger dancers

### Specification Guide Professional Free-Standing Barres

Height (from floor to top of lower barre)	32 $\frac{1}{2}$ " (82cm)
Height (from floor to upper barre)	41 $\frac{1}{2}$ " (105cm)
Overall length	52" (132cm)
Barre diameter	1 $\frac{1}{2}$ " (4cm)
Weight	9kg (20lbs)

Whether you choose portable free-standing or permanent wall-mounted ballet barres, you'll realize they are almost a prerequisite for the dancer. Without a comfortable and sturdy barre it is hard to do the essential warm-up and stretching exercises.

## HARLEQUIN BALLET BARRES

### Single and Double Wall-Mounted Ballet Barres

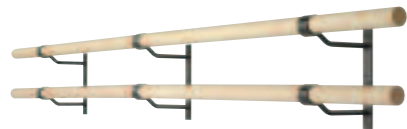

HARLEQUIN'S WALL-MOUNTED BARRES feature various shaped mounting plates to suit the design of your studio. All have strong fixings to the wall: four fixings for the single bracket and six fixings for the double bracket. Brackets are available either in powder-coated colored finish, or chrome plated.

- Brackets are supplied complete with screws and plugs and can be mounted at any height
- Barres are set at 8<sup>1</sup>/<sub>4</sub>" (21cm) from the wall to the center of the barre. On the double bracket the two wooden barres are spaced 8" (20cm) apart
- Wooden barre is 2" (5cm) in diameter and 60" (150cm) long. Other lengths available manufactured in beech.
- Lengths of barre can be joined inside the bracket heads to hide the joins and give the impression of a continuous length of barre, for example along the entire length of a studio wall
- Choice of color: black available as standard, additional colors including gray, white, metallic, or chrome plated to order.
